MANY HOUSES WERE BLOWN DOWN

What is Supposed to Be the Tail of the Storm Struck Galena Unroofing Houses Etc.

A Cyclone Passed Over Cherokee County, Alabama, Causing Death and Destruction—Houses and Orchards Laid Waste.

Kansas City, Mo., April 10.—A special from Joplin, Mo., says it is reported here that a tornado struck Altamont, Kan., 50 miles west of here, at 4 o'clock Thursday afternoon during which many houses were blown down and many persons were killed. The news was partly confirmed by a 'Frisco' train crew to whom the funnel-shaped cloud was visible for many miles in Kansas near Oswego. What is supposed to be the tail end of the storm struck Galena, unroofing houses and doing other damage.

Joplin, Mo., April 10.—It was reported Thursday night that a tornado passed over Southeastern Kansas Thursday afternoon. Considerable damage was done to the country near Altamont, 50 miles west of Joplin. Passengers on an eastbound St. Louis & San Francisco train said that it was reported at Altamont as the train passed through there at 7 o'clock that a tornado had passed over the town and had done much damage in the country near there.

Gadsden, Ala., April 10.—The cyclone which passed over a section of Cherokee county Wednesday morning caused the death of one person, the injury of several others and done much damage. The cyclone first struck the house of Charles Smith, a tenant on the Bishop farm on the Coosa river. Smith's back was broken and his 7-year-old son was killed. The storm then swept back and forth across the Coosa river and laid waste some of the finest houses and orchards in Cherokee county.

LOOTED A HOUSE.

Man and Eight Boys Carried Off \$5,000 Worth of Brica-Brac.

New York, April 10.—A man and eight boys looted a house in East 53d street Thursday afternoon. They carried off \$5,000 worth of brica-brac, silverware and jewelry. Seven of the boys have been arrested. One of them, 8 years old, confessed and told the names of the others. The house was occupied by Mrs. Elizabeth Dempsey, a widow. Thursday morning she removed her furniture to a new abode. She intended placing her remaining belongings in storage. Mrs. Dempsey left the house at noon and returned at 6 o'clock. She found that the house had been ransacked and almost everything portable had been carried off.

THE CZARINA IS ILL.

She is Reported in a Serious Condition From Peritonitis.

Paris, April 10.—A dispatch to Rappell from St. Petersburg Thursday morning states that the czarina is suffering from peritonitis. Her accouchement is expected soon, and this gives rise to grave apprehension.

The czar, Rappell says, is constantly by her majesty's bedside. The cause of her illness is a severe cold which she contracted several days ago. She is in a serious condition.

The czarina, before her marriage to Czar Nicholas, was the grand duchess Alix-Victoria, of Hesse and the Rhine. She is the sister of Ernest Louis, head of the family of Hesse.

Alexander, and not dismembered, as at first proposed. Lucas Brodhead, who, for many years has been manager of the establishment, has resigned that position, and Dr. A. J. Alexander, the eldest son of the famous breeder, will conduct the breeding interests of the place. It will be the purpose of Dr. Alexander to regain the former glory of the place as a breeding farm for thoroughbred horses. Harry Bassett, Norfolk, Duke of Magenta, Kingfisher and many great ones came from that place.

Mr. Lansdowne left all of his property in trust, with W. C. Jackson as trustee. His will provided that in case his grandchildren died without issue all of the estate is to revert to the county. Mrs. Carr is dissatisfied with the will and will likely appeal to the court for annulment. The estate is a large one.

MINERS' TROUBLES

A Disagreement Regarding the Commission's Ruling Causes Numerous Small Strikes.

PRESIDENT MITCHELL'S LETTER.

Calls on District Officers to End All Strikes and Induce the Idle Men to Resume Work.

If They Refuse He Suggests That Grievance Committees Be Appointed to Confer With the Mine Operators to Settle Matters.

Philadelphia, April 10.—The numerous small strikes in the anthracite coal region resulting from the disagreement between operators and miners regarding the strike commission's ruling on the number of hours constituting a day's work has brought forth a letter of instructions from President Mitchell. District officers of the miners' union are in receipt of a communication from Mr. Mitchell calling upon them to end all strikes and induce the idle men to return to work. If the strikers refuse to work, Mr. Mitchell suggests that grievance committees representing the colliery employees be appointed to confer with company officials in an effort to adjust the differences.

At the Maple Hill colliery of the Reading Co., near Mahanoy City, runners, leaders and door tenders Thursday joined the striking drivers and about 150 men are idle. The drivers have established the picket system, and the company is furnishing police protection to those who have taken the places of the strikers.

The miners' advisory board of Mahanoy City has determined that the men shall not work nine hours on Saturday, asserting that this demand is a violation of the spirit of the commission's recommendations.

Altoona, Pa., April 10.—Until the question of whether or not a bridge is part of a set of harness has been settled, 1,200 bituminous miners at the 13 operations of the Beech Creek Coal and Coke Co., at Patton, Cambria county, and Arcadia, Indiana county, will remain idle. The drivers at these mines say a bridge is part of the harness, and since the Altoona convention which stated that drivers shall not harness or unharness the mules, they refuse to put the bridge on.

Wednesday morning they found the mules all harnessed save the bridles. They refused to touch the bridles and struck. The mines, therefore, could not work. Mine Superintendent Lingle held several futile conferences with the strikers. The superintendent says a bridge is no more a part than a hat is part of a suit of clothes.

LABORING MEN FIGHT.

One Man Killed and Others Slightly Hurt at Detroit.

Detroit, Mich., April 10.—Michael Sullivan, of Walkerville, Ont., was shot through the neck and a number of other men were slightly injured Thursday night in a fight between strikers and non-union workmen of the Canadian Bridge Co., of Walkerville, across the river from Detroit. The fight took place in Detroit. The police arrested four non-union workmen who were returning home from their day's work.

It is alleged that the strikers and their sympathizers followed the non-union men from Walkerville across the river to Detroit with the intention of making trouble as soon as they reached the American shore. There were probably 200 men, including both factions, and the fight began as soon as they had left the ferry at the Detroit wharf.

The strike has been on since April 1, when the Canadian union workmen were requested to work a 10-hour day but refused and asked for an increase of 10 per cent. with a nine-hour day. They were receiving 16 to 30 cents an hour, according to the class of work.

THIRTY MILE COURSE.

Shamrock III. Defeated Shamrock I. By 17 Minutes and 26 Seconds.

Weymouth, Eng., April 10.—Over a 30 mile course, 15 miles to leeward and 15 to windward, Shamrock III. Thursday defeated Shamrock I. by 17 minutes and 26 seconds. Hitherto the challenger had shown weakness down the wind but Thursday it proved as good on this point of sailing as on any other, and better on all points than it had heretofore shown itself. Over ten minutes on the run out from the turning point at Lulworth Cove and over seven minutes on the beat home were the challenger's gains over the older boat.

The personal estate of the late Anderson Jennings was appraised at \$645 19.

A Holstein cow at Utica, N. Y., has broken the world's thirty day record. She gave during that time 2,754 pounds of milk, making 123 pounds 8½ ounces of butter. The world's official record previously stood at 112 pounds of butter.

A handsome young man, who generally gives his name as C. C. Mason, has been swindling hotels in up river towns by means of forged checks. Hotels at Gallipolis, Pt. Pleasant and Pomeroy are the sufferers. He appears to be working the graft that he is in charge of a gang of men taking a raft of logs down the river to sell at a certain point. He makes arrangements at a hotel to board this gang of men while in the town, gets his meals till they arrive and disappears suddenly, the gang of course never showing up.

"Barlow" in the Ripley Bee corrects the statement recently made by the Ledger that the Bethlehem (Slickaway) Church "was twice before washed away by Three-Mile Creek." It was never washed away. The old brick church built in 1829 was partly blown down on the 21st of May, 1860, by "the great May storm" which occurred on "bonnet show" day, the third Lord's Day communion meeting. The large frame erected the same year was accidentally burned. The present frame structure stands on the same spot, but on a higher foundation. The "bonnet show" has lost its former greatness since the death of the founder of the church, the venerable Elder Mathew Gardner.

To the end that the accounts of the Ohio Valley Improvement Association be simplified and that the fullest protection be thrown around its treasury, it is the earnest request of the Executive Finance Committee that all remittances, payments or contributions, of any character, intended for the support of the work of this association, be remitted in the form of check or draft, to the order of Mr. Jas. D. Parker, Treasurer, Cincinnati, as the association has no traveling agents at present who are authorized to represent it. These checks may, and should, be mailed to the Secretary of the association, for entry and passage to the Treasurer, thus establishing a perfect system of check and protection to the funds of the association. Compliance with this request will be highly appreciated by the Executive Finance Committee.

BATTLESHIP IOWA.

Disastrous Explosion While the Vessel Was at Target Practice in the Gulf.

FORWARD PORT BIG GUN BURST.

Three Men Were Horribly Mutilated and Five Others Injured Two of Them Seriously.

Three Pieces of the Gun Weighing Over a Ton Each Passed Through the Spar Deck Falling Upon the Men at Mess.

Pensacola, Fla., April 10.—A disastrous explosion occurred on the battleship Iowa Thursday while the vessel was at target practice in the gulf. The forward port 12-inch gun burst from the premature explosion of a shell, 12 feet of the piece outside the turret being demolished. Three men were killed and five injured, two seriously.

The men killed and injured were on the second, or gun deck, at mess. Three pieces of the exploded gun, each weighing over a ton, passed downward through the spar deck, falling upon the men at mess, instantly killing three men. All of the men were horribly mutilated. The heavy missiles, after passing through the gun deck, continued down to the third deck, the heavy steel bringing them to a stop, thus saving the engineers and firemen who were at work below.

Although the upper decks were crowded with men, no one there was seriously injured. Firing was to have ceased after the shot for the dinner hour. The range had been set and the Iowa was steaming along at a speed of 12 knots an hour when Lieut. Reed, in charge of the forward 12-inch turret, gave orders to load and fire. The fire fuse was cut for the range, the pieces charged, breech closed and the word given to fire. Following the report of the gun there was a smothered report as the shell exploded midway in the gun and pieces of the burst gun and shell were scattered broadcast. Three great holes were torn through the deck. Those who were below began coming up on deck, some bloody and mutilated, while lying on the floor, crushed almost beyond recognition, were the three unfortunate men. The Massachusetts, six miles distant, was signalled for and one of the cutters put off with the surgeon and assistants. The wounded men were taken to the hospital and their injuries dressed. The dead were brought to Pensacola.

Some claim the explosion was caused by a defective shell and others think that the frequent firing of the piece at Culebra during the winter, added with the work done here during the past ten days, so strained the piece that the force of the charge burst the gun.

Washington, April 10.—A long dispatch came to Acting Secretary Darling, of the navy department, Thursday night from Rr. Adm. Higginson, commanding the North Atlantic squadron, now at Pensacola. A portion of it was in cipher. He gives the following list of killed and injured:

THE CITY POLL TAX.

At the last meeting of the City Council the President of the Board of Education called attention to the failure of the authorities to enforce the payment of the poll tax. The statement was made that there is now due the city from \$4,000 to \$6,000 from these delinquents. The poll tax is devoted wholly to the maintenance of the public schools of the city, and the failure to collect it throws an additional burden upon owners of property, and is virtually placing a double tax upon realty and personality.

An investigation brings to light the surprising fact that some members of the City Council, some of the city and county officials and even some members of the Board of Education have failed to pay this poll tax. If the authorities are not going to enforce the payment of the tax let it be abolished altogether; but the present delinquents should first be made to march up to the Treasurer's desk and settle.

THE recent decision of the Missouri Supreme Court has attracted much attention and has been the subject of discussion as to its probable effect on trusts. It seems to be the consensus of Democratic opinion at Washington City that while the Missouri decision shows the earnestness of the Democratic States in the matter of curbing the trusts, yet it shows conclusively that State legislation can never furnish the remedy for trust control and for trust extermination. The members of the beef trust will simply pay their \$5,000 fine to the State of Missouri and proceed to the robbery of the people as before. The Democrats feel that the only way to control a beef combine is to take the tariff off cattle and then put the clamps down so that railroad discrimination in freight rates will be an impossibility. The railroad trust must be killed before the beef combine or the oil trust and a lot of other trusts can be handled. It is also felt that the Democratic contention in the tariff debate in the next Congress, which is sure to come, will be to remove the tariff from those articles controlled by the trusts and not enter into a general revision of the tariff, which might disturb the business conditions of the country. Of course, those tariff schedules will never be touched so long as there is a Republican Congress and a Republican administration, but if the people are convinced that the Democrats do not intend to tear things all to cussed smash, but to proceed conservatively about this business and eat only those trusts that are gouging the people the hardest, there will be no Republican Congress and no Republican administration after the fourth of March, 1905.

Which is wiser—to have confidence in the opinions of your fellow citizens, of people you know, or depend on statements made by utter strangers residing in far-away places? Read the following:

Mr. George N. Crawford, blacksmith and wheelwright, corner of East Second and Lee streets, says: "The great benefit which speedily follows the use of Doan's Kidney Pills seems little short of miraculous. I procured the remedy at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and by the time I had used one box I was cured. If any one suffers from kidney trouble while such an effective kidney cure as Doan's Kidney Pills can be had, the fault is their own."

A codicil was added, Mrs. Maggie Crane having died, and leaving a daughter, Anna Leona, the latter is to receive her mother's portion, and should she die without issue her share is to revert to the remaining heirs as under the will originally. The will has been offered for probate, but the hearing was postponed. Mr. John W. Bramel is named as executor.

GEORGE H. FRANK & CO. **Bankruptcy Sale!**

In the matter of The Collins & Rudy Lumber Company, Bankrupt. District Court of the United States for the Eastern District of Kentucky. In Bankruptcy. Pursuant to an order entered in the above-styled cause on March 21, 1903, at the court held at the office of Hon. Thos. R. Phister, referee, in Maysville, Ky., I will, on **WEDNESDAY, APRIL 22, 1903**, proceed to sell at public auction, on the premises, to the highest and best bidder,

All the Machinery and Real Estate of the Collins & Rudy Lumber Co.,

bankrupt, which comprises the following: Three good, desirable Dwellings, the Worick property being especially well improved, well located and desirable; about twenty of the best and most desirable Building Lots in the city, located about the center of the city, on car line, near school, and only about four blocks from the new postoffice; all of the lumber milling plant, consisting of Planing Mill, Saw Mill, Cooper Shop, Warehouse and Office, together with a complete outfit of up-to-date Saw and Planing Machinery. The lumber milling plant is unquestionably one of the most complete and best located in the Ohio Valley. The dwellings rent readily and pay a good return on the investment. The lots are among the most attractive for houses and most promising for speculation. The property will be sold on three equal payments—one third in thirty days, one third in six months, one-third in twelve months from date of sale, with approved personal security for purchase price; a lien will also be retained on the property as additional security. All the property will be offered in lots to suit purchasers. Each piece will be sold on its premises. Sale begins at Planing Mill property at 10:30 a. m. The trustee will be pleased to furnish any information desired or take prospective purchaser over the property. See bills for description of property.

On the Fence Question.

Hundreds of farmers in our territory who have given the "American" a trial testify by repeated orders that as a stock and all-purpose fence they acknowledge it has no equal in the world.

The American Field Fence is made of large, strong, high-grade steel wires, heavily galvanized; amply provides for expansion and contraction; is practically everlasting and never goes wrong no matter how great a strain is put on it.

The "American" will not mutilate, but does, efficiently, turn cattle, horses, hogs and pigs.

Used as a division fence in towns or cities, it is handsome, efficient and inexpensive, and every rod is guaranteed by the manufacturers and by us.

Call and see this fence and hear its merits discussed. We can show you how it will save you money and fence your fields so they will stay fenced.

G. K. WINTER.

IMPORTANT ANNOUNCEMENT OF THE MAYSVILLE GAS COMPANY.

Under 2000 cu. ft. of Gas \$1.50 per 1000.
Over 2000 cu. ft. of Gas and under 3000 cu. ft. \$1.25 per 1000.
3000 cu. ft. of Gas and over \$1 per 1000.

At a meeting of the Board of Directors of the Maysville Gas Company March 28th, 1903, it was ordered that on and after the first day of April, 1903, the above sliding scale of price of gas for all purposes, fuel and illuminating, should go into effect for all private consumption, and that all rates and discounts heretofore made are hereby abolished.

It was further ordered that after the first of April the old rule of the company "gas will be turned off if account is not paid with five days after presentation" shall be enforced, impartially and indiscriminately regardless of whom it may concern. (This action was taken not to appear arbitrary nor with the idea that the accounts of the consumers were not perfectly good at any time during the month or a year later for that matter, but for the good of all concerned and in order that this part of the business of the company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the company's agents and employees, now so largely occupied with this work of collecting, might for the balance of the month be diverted toward giving consumers of gas better attention and more efficient supply and service.)

It was further ordered that beginning with the first of May and for each and every month thereafter, the monthly statement of account of each consumer should be delivered to said consumer by an agent of the company on the first day of the month, or the second day, if the first comes on Sunday, and that said account shall thereafter within five days be due and payable at the office of the company on Court street, Maysville, Ky., and if not so paid, gas will be promptly shut off.

The gas company further announces that, after the first day of April, they will handle and sell at cost price to gas consumers any of the great variety of gas stoves and ranges made by and shown in the catalogue of the Detroit Jewel Works, Detroit, Mich., which price will be a sum equivalent to 50 per cent. discount from the list prices in said catalogue. These stoves and ranges will be sold for cash only, or according to the terms of a printed lease, whereby easy payments are extended over a period of from twelve to seventeen months. For instance, take a gas range listed in catalogue at \$25; the gas company will sell this range to consumer for \$13 cash or for \$20 cash at signing of lease and 60 cents of which time the range is sole property of consumer. The company has selected to handle the Detroit Jewel Gas Range on account of its acknowledged superiority and wide reputation for durability and economical consumption of gas. The gas company will also handle, at cost price to consumer, the fixtures and mantles of the Weisbach Company in all of their many attractive varieties.

Before closing this announcement the gas company wishes to publicly express appreciation of the eminently fair, just and courteous treatment accorded them by his honor, the Mayor, and the Board of Council, particularly the Chairman and members of the Gas Committee of that body, through whose efforts in behalf of the private consumers, the above concession in the price of gas is now announced.

With the assurance to the citizens of Maysville that it will be the earnest effort of the company and its agents to at all times give them their best possible service at the least cost, we beg to remain, very respectfully, MAYSVILLE GAS CO.

P. S.—On and after April 1st the gas company will have on exhibition at the plumbing establishment of Mr. Larry Langfels on Market street, samples of the Detroit Jewel Gas Ranges, to the inspection of which those interested are cordially invited. You can leave your order for a range with any representative of the gas company, with Mr. Langfels or your regular plumber, with whom you will have to make arrangements for the connecting and fitting up of range in case of the placing of order.
